The Best Nursing Databases — Linked from the Nursing Subject Page and “Databases A-Z” from the OneSearch Station. Logon off campus using your Portal Login.

🌟 CINAHL: This is THE major index to nursing literature. An absolute must for comprehensive literature reviews.

Cochrane Library: This is a collection of six evidence-based medical databases, with protocols, controlled trials, and full-text reviews to inform healthcare decision-making.

PubMed: Comprises more than 23 million citations for biomedical literature from MEDLINE, life science journals, and online books. Indexed by the National Library of Medicine. Very comprehensive.

ScienceDirect: Abstracts, tables of contents, and full text of articles and book chapters in the physical sciences and engineering, life sciences, health sciences, and social sciences and humanities.

Academic Search Premier: A general database but it has a broad range of social science, including nursing, literature referenced in it.

Library homepage search box: Search multiple resources at one time, including books from all CSU campuses, government documents, videos, and many Meriam Library Databases.

Get Materials Chico State Does Not Own – Use Interlibrary Services (ILL) to request books, articles, and government documents from other libraries.

**Nursing Guides**: A great place to start your research. Resources selected for use in the health sciences.

**Top Nursing Journals**

- International Journal of Nursing Studies
- Journal of Advanced Nursing
- Journal of Nursing Administration
- Journal of Clinical Nursing
- Journal of Nursing Management
- Journal of Nursing Administration
- Journal of Palliative Medicine

**Davis's drug guide for nurses**: Online reference resource

**Government Documents**

Since 1993, most Government Documents are online. They provide statistics, program information, funding information, demographic information and much more.

**Search for a Specific Journal**

To search for the journals listed above, or any journal you have the title for, follow these steps:

OneSearch → Search For → A Specific Journal Title

Once you open “Journals by Title”, enter the title of the journal you are searching. The record for the journal will indicate if the journal is online or print and the years it is available.

**Search Tips**

- **Brainstorm synonyms for your concept/keyword.**
  Different databases use different words for the same concept. Searching for alternative words improves your chances of success. *Elderly or Aged*

- **Modify your searches based on your results.**
  If you find articles that reflect your interests, redo your search using words that appear in the title, subject headings, abstract, or full text of that article.

- **Use the asterisk (*) to find various word endings.** (i.e., nurs* finds nurse, nurses, nursing)
